REQUEST NO: 005

Please indicate the Applicant's fair value rate base in Arizona.

RESPONSE:

The rates contained in this filing are for services that have been classified as competitive by the Commission and that are subject to the Commission's Competitive Telecommunications Service Rules. Fair value is not useful in determining just and reasonable rates for competitive services. In fact, this was stated in Conclusions of Law No.8 in Decision No 66613, which approved QLDC's CC&N and established that QLDC's fair value rate base was zero.
